Successful HUBER presentation at the IFAT 2016 trade show

16.06.2016

At the IFAT 2016 that took place in Munich from 30th May to 3rd June the HUBER group successfully presented its complete range of products and fields of application.

With an exhibition stand of more than 1,100 m² HUBER presented a wide selection from its present product range and, moreover, a large number of innovations and improvements. Numerous visitors from all over the world took this opportunity to get an idea of our extensive business spectrum, innovative products and future-orientated solutions.

We would like to use this opportunity to cordially thank all our visitors for their interest and trust placed in HUBER!

The high response from the visitors and the many constructive meetings during the exhibition week are for us the confirmation that our products exactly meet the market requirements, both national and international, and provide innovative and reliable solutions for any application.

It will remain our endeavour also in the future to commit ourselves to the development of innovative and customer-oriented solutions in the fields of wastewater and sludge treatment, potable water supply and energy efficiency.
