HUBER TECHNOLOGY
WASTE WATER Solutions

HUBER Factory Repair Service

General overhaul and refurbishing – for another product life cycle!

Capacities for professional future service

In 2004, we erected a new service repair hall at our headquarter premises in Germany to optimise the range of services we offer our customers.

On a hall area of more than 2,000 m² capacities and technical equipment are available to ensure quick and economical repairs and complete overhauls of machines and plants of any size and number.

If requested, we take over the complete organisation of any peripheral work as well:

- On-site disassembly of defective plants
- Provision of a rental machine (as far as available at that time)
- Transport of the defective plant into the HUBER factory
- Professional, complete overhaul of the plant with guarantee
- Transport of the plant back onto site
- Installation and new start-up including performance testing

FULL SERVICE FOR COMPLETE CUSTOMER SECURITY!

Full Service

REPAIR AND GENERAL OVERHAULS OF PRODUCTS FROM OTHER MANUFACTURERS:

Our extensive and professional service and support is, of course, available also for products from other manufacturers. We maintain and repair also these products quickly, professionally and economically.

Whether you have a product from HUBER or any other manufacturer, contact us and make use of our service potentials! We provide professional advice and offer solutions that will give you full satisfaction.
